

## Ideas of things to do

Dear Children and Parents/Carers,

There are lots of ideas of things to do at home and free resources to try out. Remember to check with your adult before you go on the internet.

Mrs Day

---

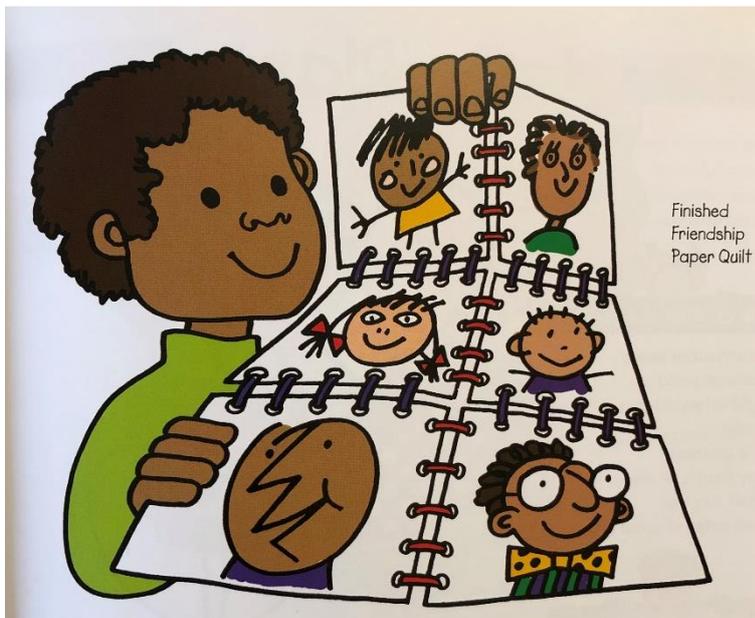

### **'All about me'**

Write down things about yourself such as your favourite colour, favourite food, favourite story. Talk to your family about funny things you did when you were younger and add these into your book. You could find out how old you were when you first sat up by yourself or when you took your first step. Perhaps you could write down some of the new skills you've acquired this year.

---

### **Make a friendship paper quilt**

Cut some paper into squares about 15cm x 15cm and punch some holes around the edge. On each piece of paper, draw a picture of one of your friends and colour it in. Use some string, wool and sewing thread to join the squares together and make your very own quilt for your bedroom wall.

## Weather watch board

Cut out a large rectangle from an old cardboard box to use as your weather board. Then cut out some weather symbols such as a sun, a cloud, a cloud with raindrops and colour them in. You can blutak these onto the board depending on the weather. Why not watch the weather forecast on television to get some tips and then become a very special weather forecaster for your family to let them know what the weather will be like that day!

---

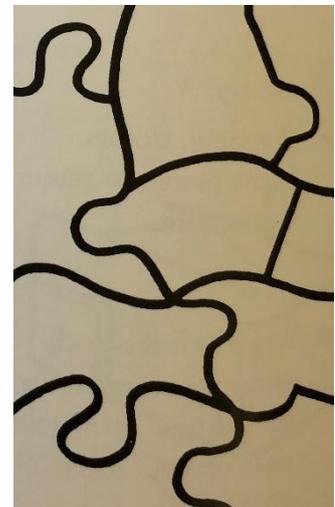

## My family tree

Can you draw your family tree? Find out the names of your great aunts and uncles and your great great aunts and uncles.

---

## Make your own jigsaw

Find a pretty picture from a magazine or use an old birthday card. Glue the picture onto some cardboard and draw some puzzle pieces onto the back of the cardboard. Cut along the lines and then have fun putting all the pieces back together again.

---

# Have fun!
